The National Grange, which recently met in St. Louis, manimously adopted the follow-

ing declaration of principles: First-United by the strong lie of agriculture, we mutually resolve to labor for the good of our order, our country and mankind. Second-We heartily endorse its motto:

"In executivity unity, in non-executivity liberty; in uil things churity."

We shall endeavor to advance our cause by laboring to accomplish the following objects: To develop better, higher manhood and womanhood; to enhance the comforts and attractions of our homes; to strengthen our departments, to emulcoming; to reduce our expenses, both individually and concretely, by lessening our outlays and

In order to make our farms self-supporting wa propose a union in working together, buying and selling together, and in such general way acting together for our mutual protection and advancent as occasion may require; we shall avoid litigation as much as possible by arbitration in our Granges; we shall constantly strive to secure entire harmony, good will and brotherhood among ourselves, and to make ourselves perpetual; for our business interests we desire to bring the producers and consumers, the farmers and ufacturers, together into the most direct and friendly relations possible, and we must dispense with surplus middlemen—not that we are un-friendly, but that we don't need them; all our acts and all our efforts, so far as business is concerned, are not only for the benefit of the producers and consumers, but also for all our interests which tend to bring these two parties into speedy and economical contact; hence, wholesale transportation companies of every kind are necessary to us; their interests are connected with

Keeping in view that sentence and our declaration "that individual happiness depends on general prosperity," we shall therefore advocate for every State a service of facilities for trans-porting cheaply to the scaboard, or between home producers and consumers, all the productions of our country. We adopt it as our fixed purpose to open channels for cheap transportation

There is to be no communism, no agrarianism. We are opposed to such a spirit and management of any corporation as tends to oppress the peo-ple and debrive them of their just profits. We are not enemies to capital, but we oppose monop-oly. We long to see the antagonism between capital and labor removed by common consent and by enlightened statesmanship worthy of the nineteenth century. We are opposed to excessive high rates of interest and exorbitant profits; they greatly increase our burdens and do not bear proper proportions to our labors. We de-sire only our land by legitimate transactions. We shall advance the cause of education among ourselves and for our children by all just means in our power. We are especial advocates that our agricultural sciences and the arts which adorn our homes shall be taught in their courses of

Sincerely we assert the oft-reported truth taught in our organic law, that Granges-National, State or l'ublic—are not political or party organizations. No one true to its obligations can discuss political or religious questions, nor can political conven-tions or names of candidates be mentioned in them. We teach the underlying of all true poli-tics, all true statesmanship, and if properly car-ried out it will tend to purify the social atmosphere of the whole country. If we seek the greatest good we shall always bear in mind that no one y becoming a Patron of Husbandry gives up hat right and duty which belongs to every Amerlean citizen, to take a proper interest in politics. On the contrary, it is hoped every one does all in his power to influence for good the actions of any political party. It is his duty to do all he can to put down bribery, corruption and trickery—to allow none. But it should always characterize the belief of every Paron of Husbandry that the officer and on the contraction of the contr ces should seek men, and not the man seek the

They appeal to all good citizens of all classes for support in their efforts toward reform; declare that one of their cardinal principles is to assist any suffering brother, and finally proclaim that one of their purposes is to inculcate a proper appreciation of the abilities and sphere of woman. Ours being peculiarly a farmers' institution, we cannot admit all to our ranks. Many are excluded by the nature of our organization, not because they are professional men, or artisans or labor-ers, but, because, they have not sufficient direct interest, or may have some interest in conflict with our purposes. But we appeal to all good citizens for their co-operation to assist us in our efforts toward reform. Aid us in our endeavors, that we may remove from our midst the last vestige of corruption.

We hall a general decree for fraternal harmony and earnest co-operation as an omen of our future success. It shall be an abiding principal with its to relieve all of our suffering brotherhood by any means in our command.

Last, but not least, we proclaim among our purposes to inculcate a proper appreciation of the ability and sphere of woman, as is indicated by her admittance to membership in our order. Imploring the continual assistance of our Di-ne Maker to guard us in our work, we here edge ourselves to faithful and harmonious labor for all future time, and to return by our unit-ed efforts to the wisdom, justice and political se-curity of our forefathers.

IMPORTANT TO MINERS,

[From the Elko Independent.]

The fellowing letter from the Commissioner of the Land Office settles the question as to the right to prospect within the exterior bounds of a mining location, made under the Act of Congress, approved May 10, 1872. We understand the law has been construed

differently in some camps in this county, and that parties claim the right to enter the surface location to prospect for any other vein than the one located. It is the interest of any mining camp to have the title to its mines settled as speedily as possible, as nothing so retards the progress of a camp as clouded titles and litigation. Hence we hope this clear exposition of the law from the Commissioner will have the happy effect to settle titles without further litigation and give more vigor to the further prosecution of ork in all our mining camps.

The letter was written to a gentleman in this place and reads as follows:

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., Jan. 30, 1874. Dear Sir: In reply to your letter of the 22d ult., I have to state that the third section of the mining act of May 10, 1872, provides that the locators of all mining locations open any mineral vein, lode or ledge, their heirs and assigns, "so long as they com-ply with the laws of the United States, Teritorial and local regulations, not in conflict with the laws of the United States governng their possessory title, shall have the exclueice right of possession and enjoyment of all the surface included within the lines of their locations and of all veins, lodes and ledges throughout their entire depth, the top or apex of which lies inside of such surface ines extended downward vertically," etc., provided no adverse claim existed on the

Oth of May, 1872. When a party has located a mining claim in accordance with the local laws and custoins and the Congressional enactments he ias the right to hold such location, and so ong as he does comply with local laws and congressional enactments, no other party has the right under the law to prospect for other veins or lodes within the exterior boundaries of such location,

WILLIS DRUMBOND, Commissioner.

It is asserted by those who ought to know that Mr E. N. Fish, of Tueson, is about to wed a Miss Wakefield, of the same town.

San Francisco, March 2 .-- Gold in New York, 112%. Greenbacks in San Francisco,

NATCHEZ VS. BATEMAN .-- A couple of weeks NATCHEZ VS. BAYEMAN.—A couple of weeks ago, the Rev Mr Bateman, agent of the Finte tribe of Indians in this State, had a falling out with Natchez, a Pinte chief, who fives in Humboldt county, and had the said chief arrested and taken down to Alextraz Island on a charge of inciting bis tribe to rebellion. The people of Humboldt who know Natchez sided him and thought the agent's charge groundless. Gen Scholield, after hearing Natchez' side of the story, immediately released him from conflue-ment, thereby showing that he believed it. Natchez says that Bateman, the agent, told birn that he drew for the Pintes on the Truckee reservation, rations from Government for 500 Indians. Natchez laughed and told him that he (Bateman) knew that there were not more than sixty Indian on that reservation-men, women and children He says that Bateman makes return for 6,000 Pintes as under his charge, while there are not over

Natchez says that during the summer only seven men, blind men, remained on the Truckee reservation. All the rest go out hunting. But Batemon draws the same amount all the time, viz: five bundred rations, and that he distributes little or nothing; that having on one occasion distributed six or seven blankets, he made the Indians pay him for them by working on his farm.

If the Indian lies it must be very easy for Bateman to prove it; but if he doesn?, the agent ought to be reconstructed.

The foregoing from the Reveille, of Austin, Nevada, is another strong link in the long chain of evidences, going to show that some of the "so-called" Christian Indian agents, who fool the Eastern Churches, Government, white people and Indians, are fit subjects for the halter or a bastile. It is such thieving hypocrites, and not the citizens of the border, who bring misunderstandings and war with Indians "not taxed."

ON CHURCH COMPLETION .- Mr. Editor: - In a communication in the Daily MINER of last J. F. RHODE, at L. B. JEWELL'S. Saturday, I thought I perceived my name, and by rubbing up my spectacles, and hold-ing up the paper to the light, the impression was confirmed; for there it was once and again, and reference made to it twice besides. But, when I came to Keno, I stopped to inquire who is this Keno I who is so jealous of the good name of the place in which he resides, -as every man should be-and is so unwilling to permit "the proverbial liberality of the people of Prescott," to suffer a decline, even in these hard times, that he was willing to say to "the world and all the rest of mankind," "my subscription was 00, and if necessary will give the same amount again." Wonderful benevolence! "Proverbial liberality" Extra!! Therefore, as the heart of Keno has grown into a gizzard to grind out the bounties of his "liberality," toward a house of worship, and thereby bring Heaven and earth under obligations to him, may be live forever.

Now for the stubborn facts. The names of the contributors have been preserved, and the subscription roll is open for inspection to all. The amount subscribed by citizens within ten miles of Prescott, aggregates to just \$900; the amount paid in work, \$122; and the amount paid in materials and money, \$330, making \$452. I have expended in and for Prescott \$1070, of which \$555 were for the church, besides having had weary feet, and hands crooked and hardened by patient

As the people of every civilized nation, and even respectable heathen, have their houses of worship, I am ambitious to have one church north of the Gila, which shall be well finished, and an ornament to the town of Prescott; and no less anxious that others should dot Arizona, which will soon be a Territory of note, on account of its free schools, the intelligence of its inhabitants, its vast fields for grazing, and its inexhaustable treasures of mineral wealth. G. A. REEDER.
